

# International Conference on Smart Mobility and Logistics in Future Cities

18-20 October 2018 • Hong Kong Convention and Exhibition Centre, Hong Kong

Jointly Organized by:

THE UNIVERSITY OF HONG KONG

INSTITUTE OF TRANSPORT STUDIES

交通運輸研究所

The Chartered  
Institute of Logistics  
and Transport

The International Conference on Smart Mobility and Logistics in Future Cities is co-organized by Institute of Transport Studies at the University of Hong Kong (HKU ITS), The Chartered Institute of Logistics and Transport in Hong Kong (CILTHK) and Transport Department (TD) of the Hong Kong SAR Government. This conference also marks the 50th Anniversary of both CILTHK and TD, and the 20th Anniversary of the Master of Arts in Transport Policy and Planning (MATPP) programme at HKU. The event is expected to attract over 400 participants from around the world. It proudly distinguishes itself among others as a concerted, interdisciplinary and multi-sector platform for leading academics, professional experts, and policy-makers across the transport and logistics sectors from around the world to discuss various opportunities and challenges of developing, implementing and enhancing smart mobility and logistics in future cities.

This three-day conference features three keynote sessions, more than twenty parallel sessions, industry showcases, exhibitions, and technical tours. We aim to converge the latest innovations worldwide in addressing mobility and logistics issues in smart cities from an interdisciplinary perspective, opening the way for planning accessible, efficient and thus sustainable transportation in the future. It will provide exceptional opportunities for interacting both professionally and socially.

**Guest of Honour** (To be confirmed soon)

## Keynote Speakers\*

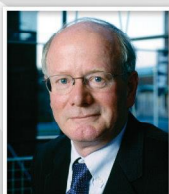

### Professor Kay Werne AXHAUSEN

IVT  
ETH Zürich  
Switzerland

### Professor Mei-Po KWAN

Professor and Director of Space-Time Analysis  
and Research Lab (StarLab)  
Department of Geography and Geographic  
Information Science  
University of Illinois  
USA

### Professor David BANISTER

Professor Emeritus of Transport Studies and  
Senior Research Fellow at St Anne's College  
School of Geography and the Environment  
University of Oxford  
UK

### Mr. Lincoln LEONG

Chief Executive Officer  
MTR Corporation  
Hong Kong
