

Intelligent Sensors and Edge AI in Manufacturing

Free Webinar

23 Nov 2021
15:00 - 17:00

Zoom Live

English (with
Mandarin Interpretation)

Practitioners in
manufacturing and
logistics

To stay competitive, it's important for the enterprises to keep abreast of the latest information of industrial AI applications today.

In the webinar, professional experts from RWTH Aachen Campus and Hong Kong Industrial Artificial Intelligence & Robotics Centre (FLAIR) will introduce you the latest AI applications, for example, Digital Twin for industrial AI applications and the opportunities and challenges of building AI application. In addition, the experts from the INC Invention Center network on RWTH Aachen Campus will showcase the benefits of industrial use case, application of IIoT and real-time data analytics in Manufacturing.

Itinerary

| HK Time | Details |
|--------------------|--|
| 3:00pm - 3:05pm |  <p>Introduction Mr Edmond LAI, Chief Executive Officer, Hong Kong Industrial Artificial Intelligence & Robotics Centre (FLAIR)</p> |
| 3:05pm - 3:35pm |  <p>Keynote: The Digital Twin as enabler for industrial AI applications Prof Dr Volker STICH, Director Cluster Smart Logistik at RWTH Aachen Campus, Managing Director FIR at RWTH Aachen</p> |
| 3:35pm - 4:05pm |  <p>Industrial IT Architectures Handle Real-Time and Large Data Streams of Production Assets Mr Christian MAASEM, Director Center Connected Industry at RWTH Aachen Campus, Managing Director EICe Aachen</p> |
| 4:05pm - 4:35pm |  <p>Industrial Use Case: Benefits and Application of IIoT and Edge AI in Manufacturing Mr Thomas SCHOTT, Vice President Information Technology, Rausch & Pausch SE</p> |
| 4:35pm - 4:45pm |  <p>Predictive Maintenance: AI applied in the Machining Industry Dr Benny DRESCHER, Chief Technical Officer, Hong Kong Industrial Artificial Intelligence & Robotics Centre (FLAIR)</p> |
| 4:45pm - 5:00pm | <p>Summary and Q&A Session Dr Benny DRESCHER, Chief Technical Officer, Mr Cola LAM, Senior Manager, Program Management, Ms Eva NIU, Manager, Program Management, Ms Adah Hu, Senior Software Developer Hong Kong Industrial Artificial Intelligence & Robotics Centre (FLAIR)</p> |

Supporting Organisations (In Arbitrary Order)

FLAIR is looking for new talents!
